

D.W MALINGA LAKMAL

SOFTWARE ENGINEERING UNDERGRADUATE

PROFILE

Software Engineering undergraduate at the National Institute of Business Management (NIBM), with a strong interest in software development and modern technologies. Skilled in programming, databases, web development, and software engineering concepts, with experience developing practical projects. A quick learner with good problem-solving skills, seeking a Software Engineering internship to apply my knowledge, gain industry experience, and contribute to real-world software solutions.

EDUCATION QUALIFICATION

BSc (Hons) Computer Science with Software Engineering (2024-2028)

- Currently pursuing a BSc (Hons) Computer Science with Software Engineering degree, building skills in software development, programming, algorithms, databases, and emerging technologies

Diploma in English Language – Sri Lanka English Language Graduates Association (2023)

- Developed proficiency in English communication, grammar, writing, and comprehension and improved presentation, vocabulary, comprehension, and interpersonal communication abilities.

St. Sebastian's College - Kandana- G.C.E- Advanced level -2022(2023)

Batuwatta National College - G.C.E- Ordinary level - 2019

PROJECTS

ReqSync – Requirement Engineering Platform

- Developed an AI-powered platform for requirement extraction, class diagram generation, validation, tracking, and automated SRS generation.
- Technologies:** Next.js, TypeScript, Java, Spring Boot, PostgreSQL, Gemini API.

Pocket Sentinel – Anti-Theft Mobile App

- Android security app with motion alerts, GPS tracking, and intruder detection.
- Technologies:** Java, Android, Firebase, Location Services.

CodeScope – Software Architecture Visualizer & Analyzer

- Developed a Java-based tool to visualize software dependencies, perform impact analysis, search classes, and prioritize component risks.
- Technologies:** Java, Graph, AVL Tree, Max Heap, Doubly Linked List.

Customer Segmentation prediction Using Machine Learning

- Built an unsupervised machine learning model to identify customer segments using behavioral data analysis.
- Technologies:** Python, Pandas, Scikit-learn, RFM, PCA, K-Means.

Smart Safety Vest with RFID Location Tracking

- Developed an IoT-based safety vest for real-time worker monitoring using RFID tracking, environmental sensors, and fall detection.
- Technologies:** RFID, Arduino, IoT Sensors.

TECH SKILLS

Programming Languages

- Java, Python, C++, C#, JavaScript,SQL

Frontend Development

- React.js, HTML5, CSS3, Tailwind CSS,Vite

Backend Development

- Java Spring Boot, REST APIs,PHP

AI/ML

- NumPy, Pandas, Scikit-learn, Data Preprocessing, ML Algorithms

Databases

- MySQL, PostgreSQL, Firebase, Oracle

SOFT SKILLS

- Team collaboration
- Time Management
- Adaptability
- Quick Learning
- Problem Solving
- Critical Thinking
